Husserl’s student Martin Heidegger (1889–1976) proved to be one of the most influential philosophers of the twentieth century, and the major modern exponent of existentialism. His impact extends not only to existentialist philosophers such as Merleau-Ponty, Sartre, and Simone de Beauvoir but also to psychiatrists such as Ludwig Binswanger and to theologians such as Rudolf Bultmann. Written in English. 335 pages. retrieving the cultural politics of destruction. This edition was published in 1993 by University of Minnesota Press in Minneapolis. Edition Notes. Includes bibliographical references (p. 253-322) and index. Classifications. Dewey Decimal Class. 193. Martin Heidegger is one of the greatest conundrums in the philosophical world, alternately incredibly inspiring and mind-bogglingly frustrating. S. J. McGrath acknowledges the impossibility of trying to encapsulate Heidegger in a nutshell, and refuses to present him here in summary, thereby absolving the audience of the task of reading the philosopher. Instead, this introduction is truly that — leading readers to Heidegger where they can then begin or continue their own relationship with him. McGrath deals extensively with Heidegger’s excursion into ontology, for which he is most famous, Spanos, William V., Heidegger and Criticism: Retrieving the Cultural Politics of Destruction, foreword by Donald E. Pease (Minneapolis: University of Minnesota Press, 1993). Holub, Robert, Crossing Borders: Reception Theory, Poststructuralism, Deconstruction (Madison: University of Wisconsin Press, 1992), 182ff.
