From Conquest to Conservation is a visionary new work from three of the nation’s most knowledgeable experts on public lands. As chief of the Forest Service, Mike Dombeck became a lightning rod for public debate over issues such as the management of old-growth forests and protecting roadless areas. Dombeck also directed the Bureau of Land Management from 1994 to 1997 and is the only person ever to have led the two largest land management agencies in the United States. Chris Wood and Jack Williams have similarly spent their careers working to steward public resources, and the authors bring unpar... Our public lands and waters are composed of federal, state, and local areas. Public lands are the nation's natural and cultural legacy. Some public lands are designated as parks, forests, preserves, marine reserves and sanctuaries, refuges, and national monuments; others as wild rivers, historical and heritage areas, or critical habitat. The following paragraphs excerpted from several sources provide a broad overview of our public land trust. Brief Description of Federal Public Lands. The federal government owns roughly 640 million acres, about 28% of the 2.27 billion acres of land in the United States.
