Angela recommended Hippo! No, Rhino back last December and it has been in HEAVY rotation in our house ever since (by which I mean that we keep checking it out from the library). Bart tells me this is one of his favorite picture books ever, and I believe him, since Ella informs me that when he was home with her last weekend, they went to the library and found it and read it multiple times. The story is about a rhino at the zoo who is forced to deal with the indignity of having the wrong sign put up in front of his pen one morning by a thoughtless zookeeper. Each person that comes over makes som See more ideas about hippo, rhino, animals. Kapela, a 2-week premature baby black rhinoceros, runs during an exercise session at the Wildcare animal rehabilitation centre north of Pretoria, South Africa, Monday May 19, 2003. Kapela was born two weeks premature and abandoned by his mother in a boma at Skukuza in the Kruger National Park, and is being hand-reared after his transfer to the specialist centre. No, Rhino Book Review - Common Sense Media Hippo! No, Rhino - Cheryl Rainfield: Teen Fiction Author, Reviewer. The rhino can be distinguished from the hippo by the prominent horn on its snout. Contents 1. Horns and humps, Hippos have no horns or humps. The white . Hippo! No, Rhino - Jeff Newman - Google Books Hippo! No, Rhino! The Seattle Public Library BiblioCommons Catalog - Hippo!
