What does “Gaddafi is on the wrong side of history” mean? Does it mean he's about to die, or something else? Here's the relevant quotation: At the time, it wasn't especially clear which way the civil rights movement would end up, nor was it as cut and dry a moral issue as it is considered now. In the view of history, however, it's clear he was on the wrong side. (And I should note that he admitted as such later in his career). The earliest Google Books match for “wrong side of history” appears in remarks by Clemens France, testifying before the U.S. House of Representatives on May 2, 1946, reproduced in Amendments to Social Security Act: Hearings Before the Committee on Ways and Means (1946) Jana Deleon is the best. Wrong Side of Forty is hilarious. Marina gets roped into saving the world and another world filled with gods and demigods and she only has a week to do it in. She divorces her husband after finding him in bed with a girl their daughter's age, moves to a run down cabin, meets a gorgeous game warden (who just happens to be an attorney), loses her job, and takes on the town's upper crust family. This was the first book I have read by Jana Deleon. I have been following the new genre of Paranormal Women's Fiction and I am making my way through all 13 books written by the founding members. I liked this book. It had several good elements, but it wasn't my favorite. Discover something great at Books2Read.
